PROFESSIONAL SUMMARY

Azure Cloud Architect | Lead DevOps Engineer | Microsoft Certified

Results-driven Azure Cloud Architect and Lead DevOps Engineer with **16+ years of IT experience** and **8+ years in Azure cloud architecture and DevOps**. Specialized in designing **scalable, secure, and cost-optimized enterprise architectures** across multi-region deployments. Proven track record in **CI/CD automation, cloud migrations, and cost optimization**, achieving **38% reduction in Azure spend** through workload modernization and resource right-sizing.

CORE SKILLS

Azure Services: App Services, Functions App, AKS, Azure SQL, Blob Storage, VNets, ExpressRoute, NSG, Application Gateway, Front Door, WAF, Key Vault, Azure AD, Azure Monitor, Azure Policy, Defender for Cloud, Redis Cache, SignalR, API Management
IaC & Automation: Terraform, ARM Templates, Bicep, Ansible, Azure CLI, PowerShell
DevOps & CI/CD: Azure DevOps Pipelines, GitHub Actions, Jenkins, SonarCloud, MendBolt
Containers: Docker, Kubernetes (AKS)
Architecture Patterns: Microservices, Event-Driven, API Management, Serverless, Service Bus, Event Grid
Monitoring & Optimization: Azure Monitor, Prometheus, Grafana, IBM Apptio, Cost Management + Reservations

---

PROFESSIONAL EXPERIENCE

Technical Architect – Azure Cloud Solutions

Pinkerton | Sep 2020 – Present | Noida, India

Cloud Cost Optimization & Architecture Design: Designed **secure, scalable, and cost-optimized Azure architectures**. Reduced monthly cloud spend from **$26K to $16K (38% savings)** by migrating workloads from Function Apps to AKS microservices, consolidating App Service Plans, deleting obsolete resources, and purchasing Azure Reservations for predictable workloads.

Multi-Stage CI/CD Pipelines: Built and managed **end-to-end Azure DevOps pipelines** across Dev, UAT, and Prod with gated approvals. Automated builds, containerization, vulnerability scans, and deployments to AKS clusters using Helm and Kubernetes manifests.

Infrastructure as Code & Environment Provisioning: Provisioned Dev/UAT/Prod environments with **Terraform and Bicep**, enabling consistency, governance, and automation of infrastructure deployment. Integrated Key Vault, ConfigMaps, and Secret Provider for secure configuration management.

Security & Compliance (VAPT & Governance): Worked with external vendors to address **VAPT findings** across Web APIs, Angular apps, and Azure resources. Implemented remediations including NSG hardening, library upgrades, and patch management. Enforced **Azure Policy, RBAC, Defender for Cloud**, and identity governance to meet enterprise compliance requirements.

Monitoring & Observability: Implemented observability stack with **Prometheus, Grafana, and Azure Monitor** for proactive monitoring of cluster health, application latency, and deployment KPIs.

Legacy App Migration: Led migration of **ATS and OsPrey** apps from VMware to Azure VMs (IIS, SQL Server, Reporting Services), ensuring secure VNet/subnet/NSG design and zero downtime.

Mentorship & Collaboration: Served as DevOps SME, mentoring developers, QA, and infra engineers in **cloud-native architecture, Kubernetes deployment, and cost optimization practices**.

Software Development Lead

NTT Cloud Communications | Dec 2017 – Aug 2020 | Noida, India

- Implemented Azure App Services and Azure SQL for enterprise communication platforms.
- Automated deployments with Azure DevOps CI/CD and Jenkins.
- Containerized workloads with Docker and deployed to AKS for scalability.
- Created ARM template for provision of resources on Azure.

Application Development Team Lead

Accenture Solution Private Limited | Nov 2014 – Dec 2017 | Noida, India

- Developed .NET windows applications using Xamarin, WPF, Prism and MVVM.
- Developed and maintained database using SQL server.

Senior Software Engineer

Chetu India Private Limited | Dec 2011 – Oct 2014 | Noida, India

- Developed .NET web applications and APIs for global clients using ASP.Net MVC, C#, HTML and JQuery.

- Create database structure (Tables, Views, Stored Procedures, Triggers, Queries) using SQL Server.

Software Developer

Brandshow Digital Solutions | Jan 2010 – Dec 2011

- Built enterprise web applications using ASP.NET, MVC, WCF, and SQL Server.

CERTIFICATIONS

- Microsoft Certified: **Azure Solutions Architect Expert (AZ 305)**
- Microsoft Certified: **Azure Administrator Associate (AZ 104)**

EDUCATION

Bachelor of Technology – Information Technology | Uttar Pradesh Technical University, 2008

PROJECT HIGHLIGHTS

1. Multi-Region Enterprise Architecture – DR & BCP

- Two-region deployment with automated failover via Azure Front Door + WAF, SQL Failover Groups, and GRS Storage. Achieved 99.99% availability and RTO <10 mins.

2. VMware to Azure Migration – OsPrey & ATS

- Migrated legacy workloads from VMware to Azure using Azure Migrate, right-sized VMs, and secured networking. Zero downtime and improved performance.

3. Function Apps to AKS Optimization

- Architected AKS microservices, reduced cloud costs by $10K/month, improved deployment speed by 70%.

4. Global Active Directory Sync

- Architected the .Net Web API, Architect the Azure Infra (Logic APPS, VNet, Subnet, Azure VM)
